Desalination Plant Operator

About the Role
Canouan Estate is looking for a Desalination Plant Operator for running desalination facilities that turn seawater into freshwater, including monitoring equipment, controlling processes, and performing maintenance.

Work Activities:

- Oversee the desalination process, which typically includes intake, filtration, reverse osmosis, and post-treatment, and use control systems to monitor water quality and system performance.
- Conduct routine checks, service, and repairs on plant equipment like pumps, filters, and membranes.
- Identify and resolve problems with the equipment or processes to ensure continuous, safe operation.
- Keep detailed records of inspections, service, and repairs.

Job Requirements:

- A strong understanding of technical processes and equipment, especially related to reverse osmosis and other water treatment technologies.
- The ability to analyse issues and make decisions to maintain water quality and plant efficiency.
- Priority will be given to local talent.
