Join a team shaping the future of a Caribbean paradise
Director of Risk & Safety Management

About the Role
Director of Risk and Safety Management is a critical role in safeguarding a high-end, internationally recognized resort and to develop and implement effective security strategies and protocols to protect the company against threats, theft, vandalism and other security risks. This involves conducting risk assessments, identifying vulnerabilities and devising appropriate security measures and to oversee the island's security team and centralize efforts.

Performance Metrics:

- Implementation of risk management policies and protocols
- To streamline the security programme to safeguard the property.
- To safeguard guests, visitors, employees and the property when in the premises.
- Analyse the various problems confronting the Security Department & develop solutions.
- Design & develop techniques to prevent or minimize waste, theft or pilferage.
- Adhere to the Standard Operating Procedures & ensure the same by the security team.
- Any matter which may affect the interests of the resort should be brought to the attention of the Management.
- Constant update on the area events that may affect security

Preferred Qualifications and Skills:

- Prior experience of working with luxury hospitality organizations.
- Relevant experience in risk assessment, safety procedures and standardization.
- Strong reporting and communication skills with potential military experience are preferred.

Desalination Plant Operator

About the Role
Canouan Estate is looking for a Desalination Plant Operator for running desalination facilities that turn seawater into freshwater, including monitoring equipment, controlling processes, and performing maintenance.

Work Activities:

- Oversee the desalination process, which typically includes intake, filtration, reverse osmosis, and post-treatment, and use control systems to monitor water quality and system performance.
- Conduct routine checks, service, and repairs on plant equipment like pumps, filters, and membranes.
- Identify and resolve problems with the equipment or processes to ensure continuous, safe operation.
- Keep detailed records of inspections, service, and repairs.

Job Requirements:

- A strong understanding of technical processes and equipment, especially related to reverse osmosis and other water treatment technologies.
- The ability to analyse issues and make decisions to maintain water quality and plant efficiency.
- Priority will be given to local talent.
